Selectmen Act On Petition Of Over 120 Voters

A special town meeting has been called for Monday, Aug. 24 to act upon the continuance of rent control here.

This action was taken by the selectmen Monday night as the result of a petition signed by more than 120 registered voters calling for such a meeting being filed by Patrick Garvey, 5 Chapman ave.

With Selectman Roy E. Hardy in Europe the other two members of the board, Selectmen J. Everett Collins and Sidney P. White, feeling that this was a controversial subject and that so many people were away at this time, set the August 24 date for the meeting in the Memorial auditorium.

A quorum of 350 people will be necessary before any business can be transacted. It is hoped that enough persons can be present at this time so that the action will not have to be put over any longer.

The rent control question is brought about by Chapt. 434 of the Acts of 1953 of the recent session of the state legislature.

Federal rent control expired Apr. 30 of this year but control was continued under provisions of a state law which expires July 31.

At the special town meeting it will be necessary to decide by vote that a substantial shortage of rental housing accommodations exists before voting on the question of extending the rent control law. Then the meeting will have to vote an appropriation to carry on the work.

If rent control is voted it will be necessary to set up a local rent control board under the act. The board would consist of five unpaid members and, according to the law, "a majority of the board shall be

On Guard For Health

One hundred and six years ago scattered medical societies joined together to form the American Medical association. Their purpose was to achieve better and more uniform medical standards throughout the nation. Now the association's work in bettering the nation's health deserves the widest possible recognition.

The association spends \$10,000,000 each year in study and research in the fields of rural health, industrial health, the availability of physicians, medical care for the armed forces, civil defense, medical education, etc. Much fine work has been done to encourage development of voluntary prepaid health insurance plans designed to take the financial shock out of sickness.

Protection against the hardship of long-term disabling illness or injury is being gradually accomplished. Today there are more than 90,000,000 Americans carrying hospital, surgical and medical insurance of one kind or another.

It has been found that we have an unbalanced distribution of doctors rather than a shortage of them. Highly trained physicians are attracted to metropolitan areas where the best facilities for their work are available. This problem is being resolved without violation of basic personal freedoms by physician placement services which have been put in operation by medical societies in most states. Rural communities are being encouraged to build offices or small hospitals and equip them with modern medical apparatus as inducements for young doctors.

The finest medical care is available to more Americans than any other people. It is reassuring to the public to see private medicine moving so rapidly and effectively to meet the medical needs of the nation.

Down the Years with The Townsman

50 Years Ago - July 1903

The explosion of dynamite in Lowell last Monday was heard in Ballardvale and caused considerable excitement. It occurred at the U. S. Cartridge company magazine in South Lowell and resulted in the death of 18 persons, three of whom were blown to atoms, and injuries to 50 or more. Seventy-one houses were wrecked, many more badly damaged and 13 burned to the ground.

During the warm weather the Tyer Rubber company will close its factory Saturdays.

A curious accident happened at the Downing farm last Wednesday when the floor slowly gave way under a load of hay. First the sill under the rear wheels, then that under the front wheels and finally that portion under the horses slowly sank. In the slowness of the descent neither of the horses was scratched nor was the wagon damaged.

Vacation church school will close tonight in the South church when 100 boys and girls who have completed the requirements will take part in the program. An exhibition of handiwork will be shown.

Patrolman John Deyermund played the role of hero Monday evening when he made a flying dive to catch a runaway horse by the bridle after it had raced madly for half a mile along the main thoroughfare in Shawsheen Village, part of the way on the sidewalk. The horse, attached to a racing gig, had become frightened by an electric car. The driver, a Medford man, was hurled into the roadway. The runaway eluded several pedestrians before it was caught.

Ex-Prodigy,

Half a century ago Norbert Wiener was known as a child prodigy. His father, Harvard's first professor of Slavonic languages, worked constantly to develop the best possible mind in his son. The boy entered Harvard at 14, as a graduate student, having already been to Tufts. At 18 he was lecturing in Harvard. Here he tells what it means to grow up with the doubtful blessing of genius.

Where Main Street Meets The River, Carter.

Although the story of Hodding Carter's newspaper career from the early 30's to the present, this autobiography presents the ideals and goals of the New South. Any reader with a drop of printer's ink in his blood will enjoy this!

Moral and Spiritual Values in Education,

"Military power alone will not save a nation which becomes morally bankrupt." This is the central idea in a report on the Kentucky three-year experiment which would develop moral and spiritual values in public school without setting up new departments and without violating the historic principle of separation of church and state. Crime In Modern Society, Elliott.

The author, a well-known authority on criminology, has had invaluable cooperation with J. E. Hoover, the National Probation Parole association, the Kefauver Crime committee, etc. She treats fully the case of the woman offender, penal treatment in prisons, parole practices, crime in all forms, etc. Interesting, though long.

Ruins of Great Ireland In New England,

Great stone structures in New England have long baffled the experts. Among the most interesting are the very primitive house forms, proven to be not the work of Scandinavians, but resembling Celtic style of parts of the British Isles. The author gives all known historical references that support his contention that these Celts were fleeing from the Northmen.

How To Prepare A Speech, Grimshaw.

For everyone who must prepare a speech, present a paper, say a few words or review a book, this is excellent. It tells how to begin, how to gather material, how to write and deliver a speech. Lists guides to all sorts of reference books, pamphlets, atlases, etc.

Palladium's 150th
Anniversary

This year is the 150th anniver-
 sary of the discovery of palladium
 by the British scientist, William
 Hyde Wollaston, who isolated this
 precious metal from native plati-
 num. Within a few years, he and
 his business partner, Smithson Ten-
 nant, also discovered rhodium, iri-
 dium and osmium. Of the six plati-
 num metals, only ruthenium escaped
 their notice. These discoveries were
 an outgrowth of Wollaston's suc-
 cessful effort to produce malleable
 platinum for commercial use.

JUNIOR LEAGUE

NO. LAWRENCE WINS

The North Lawrence team in the Junior League scored 4 runs in the fifth and two more in the sixth to pull ahead of the locals on the playstead last Friday night for a 6-2 victory.

Andover had scored two in the fourth inning but after the visitors made their 4-run rally could do nothing in the way of scoring.

Lose at Lawrence

The Andover team in the Junior League dropped a 7 to 4 decision to the Prospect Hill Tigers at Lawrence Monday night. Frequent misplays mixed with bases on balls accounted for several of the Lawrence team's runs.

Prospect Hill made only four hits in the game while scoring its seven runs. Andover made five hits, the longest being a triple by Grudzinski.

The Andover lineup: Williams, 2b-lf., Bowman, rf., Grudzinski, p., Vickers, p-2b., Reilly, 2b., Matton, ss., Murphy, lb., Durant, 3b., Best, lf.-cf., Polgreen, cf.-rf., Dalton, c.

LITTLE LEAGUE

CARDS SWAMPED

The North Andover Pirates scored almost at will to swamp the Andover Cardinals 16-2 in a Suburban Little League game here last Friday night.

The visitors made 14 hits and went on a scoring spree in the second when they tallied nine runs.

YANKS TOP CARDS

The two Andover teams in the Little League staged a close game on the playstead Sunday evening with the Yanks earning a 3-2 victory when Dave Barton hit a double to score Johnny Giocino with the winning run.

Billy Gallant, Yank's shortstop, saved his team from real trouble when with the bases loaded he made a fine stop and throw to second for a force-out which prevented the Cards from scoring.

Homer Beats Yanks

A grand slam home run by J. Lynch, first baseman of the Methuen Red Sox featured a big third inning in which five runs were scored to down the Andover Yankees 6 - 3 the night of July 22. The Yanks started off with a two-run lead in the first inning but the Methuen boys staged their rally to get a lead which the local team could not overcome.

Neat Trick

On a dark and stormy night the trainman was signaling to the engineer when he dropped his lantern to the ground. Another man passing by tossed it back to him on top of a boxcar. In a few minutes the engineer came rushing up. "Let's see you do that again!" "Do what?" "Jump from the ground to the top of that boxcar!"
